1 Introduction

This package is a spin-off of the package `gap`. This vignette provides example workflows and supplementary materials included in `gap.examples`.

The package consists primarily of example scripts and supporting documents installed under the package directory.

2 Installation

```
if (!requireNamespace("remotes", quietly = TRUE))  
  install.packages("remotes")  
  
remotes::install_github("jinghuazhao/gap.examples")
```

3 Help and navigation

```
help(package = "gap.examples")  
browseVignettes("gap.examples")
```

4 Package contents

```
> system.file(package = "gap.examples")
```

```
[1] "/rds/user/jhz22/hpc-work/work/RtmpbEUsXD/Rinst118304dfd2b2/gap.examples"
